

The CIPFA Insurance Network

Pragmatic Insurance Procurement

20th February 2014 - Glasgow

15.25 - 15.30

A **Special Workshop** which will update and inform insurance, legal and finance practitioners who are responsible for procuring insurance contracts. Procurement can play a valuable role in driving quality and value in public services. However EU procedures for purchasing insurance services can seem a daunting task, in what can often seem like a "seller's market".

Not all arrangements sit well with this method of procuring services – and the insurance market is a prime example. This event will explore the latest EU procurement regulations from legal and compliance perspective and will also focus on the challenges and practicalities of purchasing specialist services like insurance. Participants will be better prepared to achieve a balance between compliance, fairness and the best outcome for their organisation's needs after attending this event.

the best outcome for their organisation's needs after attending this event.	
09.30 - 10.00	Registration and Refreshments

Summary, looking ahead & Close

Key benefits of attending

Delegates will:

- Receive updates on latest legislative developments in EU procurement procedures
- Gain a better understanding of the compliance issues and potential challenges
- Debate the specific challenges of insurance markets for public services
- Be able to discuss insurance issues specific to particular sectors e.g. local authorities, housing associations, health services and academies
- Gain practical tips on how to balance compliance with getting the best value.

Who Should Attend

This event should be of particular interest to:

Insurance managers and officers, finance officers, procurement managers, auditors and anyone else with responsibility for the specific procurement of insurance in public sector organisations.

Bookings:

These events will be limited to a maximum of 25 delegates. Given the level of demand for previous CIPFA IN events, please book early to avoid disappointment.
